CAREER OBJECTIVE

B.Tech Information Technology student with hands-on MERN stack experience, including building a full-scale employee leave management system (LeaveLedger). Seeking a Full Stack Development internship to apply and grow React, Node.js, and Express.js skills in a production environment.

EXPERIENCE

Emglitz Technologies — Web Development Intern | 25 Jun 2025 – 25 Jul 2025

- Developed a responsive portfolio website using HTML, CSS, and JavaScript.
- Created clean, user-friendly web interfaces following modern web standards.
- Strengthened front-end development and responsive design skills.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java, Python, C++

Frontend: React, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman

PROJECTS

LeaveLedger — Employee Leave Management System | React, Node.js, Express.js, MongoDB

- Built a full-stack employee leave management system that streamlines requesting, approving, and tracking leave within an organization.
- Enabled employees to submit leave requests and monitor status, while administrators manage approvals, leave balances, and records via a centralized dashboard.
- Reduced manual effort and improved transparency across the leave management process.

Urban Wear — MERN E-Commerce Platform | React, Node.js, Express.js, MongoDB, JWT, CSS Modules

- Built a full-stack men's fashion e-commerce site with user authentication, product listings, and a shopping cart.
- Implemented JWT-based login/signup with protected routes on the frontend and backend.
- Connected a React frontend to a Node.js/Express backend using REST APIs, with product browsing, search, category filters, and cart functionality.
- Organized the project using reusable React components (Navbar, ProductCard, CategoryFilter, Loader, etc.) and a clean backend folder structure.
